PROFILE

I build software and AI systems for real-world operations. My corporate IT background connects applications, data, networks, servers, and support across the full delivery cycle.

EXPERIENCE

2024 — PRESENT	IT Analyst · Contractor PCNet - Support clients, including dedicated assignments with direct responsibility for their IT environments. - Infrastructure, networks, servers, security, users, and incident analysis. - Automation, integrations, and internal tools for operations such as ERS Transportes and Jadimo.
2021 — 2024	Apprentice → IT Analyst Cotrasa Scania - Progressed through four roles from apprentice to analyst. - Supported Senior ERP implementation, testing, and integrations. - Built automations, worked with operational data, and trained users.

SELECTED PROJECTS

LanChat AI CUSTOMER SERVICE AND AUTOMATION	Multi-tenant WhatsApp platform with conversation context, audio, CRM, and human handoff. Product, architecture, backend, AI, and infrastructure.
Camera OCR COMPUTER VISION	Local pipeline for detecting, reading, and auditing license plates from camera events and images. Python, FastAPI, FastALPR, PostgreSQL, and Linux.
Enterprise Automation ERP AND BROWSER AUTOMATION	Tooling around KMM/Oracle and browser systems, with checkpoints and execution evidence. Python, Oracle, Selenium Grid, React, and Docker.

CAPABILITIES

AI & Automation

LLMs, agents, Whisper, Python, computer vision, OCR, workflow automation

Software

TypeScript, React, Next.js, Node.js, FastAPI, REST APIs, Kotlin

Infrastructure

Linux, Windows Server, Active Directory, FortiGate, MikroTik, VPN, Microsoft 365

Data & Systems

PostgreSQL, Oracle, Prisma, Supabase/RLS, KMM, Senior ERP, integrations

OTHER ENGINEERING

Vulcan · refrigeration monitoring · AI connected to ERP data · Integra Condomínio · hardware automation

EDUCATION

Software Engineering

Bachelor's degree in progress

Systems Development

Technical diploma

English

Intermediate · actively improving
